GARFIELD®

Jim Davis

NCHS Role in Healthy People

- Statistical advisor to HHS and the interagency Focus Area workgroups
- Provides a large portion of Healthy People data
- Maintains comprehensive database for all objectives

NCHS Role in Healthy People

- Develops research on measuring the overarching goals
- Develops publications/presentations to assess progress towards reaching the targets/goals

- Surveys and Data Collection Systems**
 - NHANES
 - NHCS
 - NHIS
 - NIS
 - LSOAs
 - NSFG
 - SLAITS
 - Vital Statistics
- Initiatives**
 - Aging
 - Disease Classification

Future plans for Data2020

- Input system
- Development of a relational database
- Trends with HP2010 objectives
- Mapping capabilities
- User-defined graphs/charts

<http://www.cdc.gov/nchs/about/otheract/hpdata2010/thp.htm>

Healthy People 2020: Objective Setting Criteria

- Important and understandable
- Prevention oriented or address health improvements
- Drive actions to achieve targets
- Reflect national priorities and useful to both public and private sectors

Healthy People 2020: Objective Setting Criteria

- Include **measurable** objectives directed toward improved health outcomes and QoL
- Build upon previous iterations of HP
- Supported by best available science
- Address population disparities

Healthy People 2020: Data/Measurement Issues

- Global measures of health
- Elimination of health disparities
- Defining health equity

Healthy People 2020: Data/Measurement Issues

- Flexibility
 - “Developmental” objectives
 - “Emerging” issues
 - Modify objectives as science changes
- Local/subpopulation data
- Target-setting methodology

Healthy People 2020: Data/Measurement Issues

- Integration of targets for risk factors/outcomes
- Integration of EHR data with data from national health data systems

Healthy People 2020: Data/Measurement Issues

- Maintaining the comprehensive knowledge base and linking to HP2010 objectives
- Regular data briefs relevant for policy makers and the public
